Lakeview HAF analysis example – DRAFT

Plots originated in 3 Monitoring Designs
Lakeview analysis example

Winter Seasonal Habitat

Lakeview & Grazing Allotment

Sagebrush Focal Areas

Legend
Plots In Winter Seasonal Habitat - All Dates
Winter Suitability
- Suitable
- Marginal
- SPA & Lakeview
Lakeview analysis example

Spring Seasonal Habitat Suitability Proportional Area Estimates Using Plots Sampled within the Habitat Objectives Table Date Range with 80% Confidence Interval (n = 34, % of Area with Inference = 66.7%)
Lakeview analysis example

Spring Seasonal Habitat Suitability Porportional Area Estimates Using Plots Sampled within the Habitat Objectives Table Date Range within the Allotment with 80% Confidence Interval (n = 15, % of Area with Inference = 96.7%)

S-3 Suitability - Plots and Inference Area - All Points In Habitat & Within Habitat Objectives Table Sample Date Range Within the Allotment
Lakeview analysis example

Summer Seasonal Habitat Suitability Proportional Area Estimates Using Plots Sampled within the Habitat Objectives
Table Date Range with 80% Confidence Interval (n = 7, % of Area with Inference = 42.2%)
Lakeview analysis example

Winter Seasonal Habitat Suitability Proportional Area Estimates with 80% Confidence Interval (n = 45, % of Area with Inference = 77.3%, Winter analysis was not limited by sample date)
Lakeview analysis example

Winter Seasonal Habitat Suitability Proportional Area Estimates within the Allotment with 80% Confidence Interval (n = 14, % of Area with Inference = 97.9%, Winter analysis was not limited by sample date)
